EMail: sajjadhaider1016@gmail.com

❖ Objective

BS Artificial Intelligence student with practical experience in AI applications, web development, AI agents, digital marketing and creative work. Interested in building useful software and AI solutions while continuing to grow as a developer.

❖ Experience

Digital Marketing & Virtual Assistant (4+ Years of Experience)

- Managed Facebook Meta campaigns using Business Suite & Ads Manager.
- Campaign setup, audience targeting, retargeting and performance monitoring.
- Coordinated ad creatives and optimized campaigns to improve campaign performance.
- Implemented Meta Pixel and conversion tracking.
- Prepared reports, monitored campaigns and handled marketing administration tasks.
- Supported content uploads and basic design coordination.

AI & Web Developer

- Built and deployed AI-powered web applications including BZU AI Assistant and Recoveriest.
- Developed AI agents and integrated LLM/API functionality into practical applications.
- Worked with JavaScript, Node.js, Express.js, AI APIs, responsive interfaces and web deployment.
- Developed and worked on full-stack web applications using modern development tools.

Graphic Designer & Video Editor (4+ Years of Experience)

CamScanner

- Designed high-quality visual content for social media, branding and marketing campaigns.
- Created graphics including posts, banners, thumbnails and promotional materials.
- Edited professional videos for social media platforms.
- Applied motion graphics, transitions and visual effects to improve video quality.
- Worked on brand identity elements including logos, color schemes and layouts.
- Utilized Adobe Photoshop, After Effects and Premiere Pro.

Co-Founder

China Vibes

- Contribute to business operations, online brand presence and product promotion.
- Manage and support digital activities for the brand.
- Apply digital marketing, web development and creative skills to support business growth.
- Work on customer-facing activities and online product promotion.

❖ PROJECTS

1. BZU AI Assistant

- AI-powered university assistant designed to provide students with an interactive way to access university-related information.
- Technologies: Node.js, Express.js, JavaScript, Groq AI, OCR, PDF/DOCX processing, Voice Recognition.

Project Link:

https://bzu-ai-assistant-production.up.railway.app/

2. DocEdit

- Collaborative document editing application with document creation, editing, sharing and autosave functionality.

Technologies: Next.js, TypeScript, PostgreSQL, Tailwind CSS, TipTap.

GitHub:

https://github.com/sajjadhaider1016-dot/docedit-submission

3. Customer Support AI — Grok

CamScanner

- AI-powered customer support agent that analyzes customer queries and helps generate structured support responses.
- The system works with customer intent, priority, sentiment, recommended responses, next steps and escalation decisions.

Technologies: Python, Grok/xAI API, AI/LLM integration.

GitHub:

https://github.com/sajjadhaider1016-dot/Customer-Support-AI-Grok

4. ContentPilot AI

- AI-powered content and marketing assistant designed to generate different types of marketing and social media content.
- It can be used for social media posts, captions, blog content, marketing emails, advertisements and other content formats.

Technologies: Python, Flask, Groq API, Llama, HTML, CSS, JavaScript.

GitHub:

https://github.com/sajjadhaider1016-dot/ContentPilot-AI

5. ResearchPilot AI

- AI-powered research and document intelligence project designed to analyze research material and provide structured findings, recommendations and research insights.

Technologies: Python, AI/LLM integration, Google Gemini API.

GitHub:

https://github.com/sajjadhaider1016-dot/ResearchPilot-AI

6. Recoveriest

- Professional web platform designed to provide structured assistance for disabled, suspended, hacked and restricted social media accounts.

Technologies: Next.js, TypeScript, Tailwind CSS, Framer Motion, Resend API.
